Creating a Culture of Quality 4th Annual Conference

ACHIEVING QUALITY: RECONCILING COMPETING GOALS

*Guidelines, Incentives, Patient Centered Care, Shared Decision Making...
How do we judge quality?*

WHEN? March 23-24, 2015
(Immediately following the RPA Annual Meeting March 19-22)

WHERE? Baltimore Marriott Inner Harbor at Camden Yards

WHY JOIN US? The conference will examine quality care as it applies to the tension between Patient/Family Centered Care and the reality of renal replacement therapy in the current environment of clinical directives and cost consciousness. Participants will have a better understanding of how to incorporate patient centered care into decision making and how to respond when patient goals are in conflict with healthcare provider objectives.

WHO SHOULD ATTEND? This interactive meeting will enrich the abilities of the dialysis team including patients, physicians, administrators and everyone who cares about quality patient care. This conference will provide an opportunity to connect with care providers, patients and professionals from across the country. *Please mark your calendars and consider joining us!*

A renal community collaboration presented by the Forum of ESRD Networks and its Beneficiary Advisory Council in partnership with DaVita, DCI, Fresenius, the Renal Physicians Association, the American Nephrology Nurses Association, the National Renal Administrators Association and the American Association of Kidney Patients.

Overnight rooms are available at a rate of
