Improving Care Through Collaboration

Fall 2013

The Forum of ESRD Networks Medical Advisory Council (MAC) has developed a Medical Director Education Toolkit, which is the fifth in a series of toolkits to assist dialysis facilities' fulfillment of the Quality Assurance Performance Improvement (QAPI) requirements under the Conditions for Coverage.

The Medical Director Toolkit serves as the foundation of a three tiered educational program featuring formal and interactive presentations by MAC and ESRD Network Medical Review Board members who have extensive experience and expertise in the area of dialysis QAPI. The scope and associated price levels are shown here.

The Forum of ESRD Networks will work with the sponsor to apply for Continuing Medical Education and Continuing Education Unit credit, with a focus on Risk Management credit. Please contact the Forum office for further details.
